EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

IN THE SPECIFICATION

page 4, between paragraphs [0008] and [0009], the heading -- BRIEF DESCRIPTION OF THE DRAWINGS -- has been inserted.

IN THE Claims

Claims **22-27** and **31-44** have been cancelled.

This application is in condition for allowance except for the presence of claims 22-27 and 31-44 non-elected without traverse. Accordingly, claims 22-27 and 31-44 have been cancelled.

Claim 14, line 1, the word "comprises" has been deleted and replaced with the word -- comprise --.

Claim 50, line 1, the word "multinuclear" has been deleted and replaced with the word -- binuclear --.

Claim 61, line 4, the word "the" (second occurrence) has been deleted and replaced with the word -- a --.

Claim 62, line 2, the word "the" (second occurrence) has been deleted and replaced with the word -- a --.

Claim 63, line 4, the word "a" (first occurrence) has been deleted and replaced with the word -- the --.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

Claims **1-16** are allowable over the prior art of record because the prior art does not teach or suggest a process comprising the steps of providing and exposing as presently claimed, esp., the step of providing a reaction medium comprising: a protic solution; a photocatalyst capable of a two electron reduction of hydrogen ions; and a coproduct trap.

The prior art does not contain any language that teaches or suggests the above. *MacQueen et al.* do not teach a protic solution. Therefore, a person skilled in the art would not have been motivated to adopt the above conditions, and a prima facie case of obviousness cannot be established.

Claims **17-20** are allowable over the prior art of record because the prior art does

not teach or suggest a process comprising the steps of providing and photoexciting as presently claimed, esp., the step of providing a reaction medium comprising: a protic solution; a photocatalyst comprising a binuclear transition metal complex and a ligand capable of supporting the photocatalyst in a two electron mixed valence state; and a coproduct trap.

The prior art does not contain any language that teaches or suggests the above. *MacQueen et al.* do not teach a protic solution. Therefore, a person skilled in the art would not have been motivated to adopt the above conditions, and a prima facie case of obviousness cannot be established.

Claims **28-30** are allowable over the prior art of record because the prior art does not teach or suggest a process comprising the step of irradiating to photoexcite a transition metal complex comprising: two rhodium atoms, three bis(difluorophosphine) methyl amine ligands, and triphenyl phosphine; in a solution comprising hydrohalic acid and a halogen trap.

The prior art does not contain any language that teaches or suggests the above. *MacQueen et al.* do not teach a transition metal complex comprising three bis(difluorophosphine) methyl amine ligands. Therefore, a person skilled in the art would not have been motivated to adopt the above conditions, and a prima facie case of obviousness cannot be established.

Claims **45-48 and 50-65** are allowable over the prior art of record because the prior art does not teach or suggest a process comprising the steps of providing and

exposing as presently claimed, esp., the step of providing a reaction medium comprising: a protic solution; a photocatalyst capable of a two electron reduction of hydrogen ions comprising a binuclear transition metal core; and at least one chelating ligand coordinated to one transition metal of the binuclear transition metal core; and a coproduct trap.

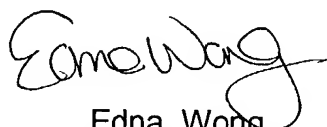

The prior art does not contain any language that teaches or suggests the above. *MacQueen et al.* do not teach a protic solution. Therefore, a person skilled in the art would not have been motivated to adopt the above conditions, and a prima facie case of obviousness cannot be established.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
